

EXPERIENCE

Physics Wallah IOI LeapX, Bangalore – Founding Engineer / Technical Lead

December 2024 - Present

- Spearheaded technical delivery for 16 parallel client projects, managing a 31-person engineering unit (7 FTEs, 24 interns) to optimize deployment velocity.
- Architected cross-platform applications (Next.js, NestJS, React Native) while leading technical scoping and budget costing for projects up to ₹12 Lakhs.
- Streamlined cloud deployments via GitHub Actions CI/CD pipelines and modular server-side architectures, reducing manual operational overhead by 45%.
- Created 15+ hands-on technical labs and training sessions to rapidly upskill teams on React Native, frontend architecture, and core DevOps workflows.

InternsElite EdTech Remote – Web Development Intern

December 2023 – February 2024

- Built and maintained scalable RESTful APIs and dynamic front-end components using Node.js and React.js within an agile engineering team.
- Engineered automated CI/CD workflows for rapid testing and deployed high-availability services across AWS EC2 and S3 infrastructures.
- Conducted internal code reviews and integrated security best practices, ensuring strict compliance with OWASP Top 10 vulnerability standards.
- **Tools used:** Next.js, React.js, TypeScript, Git, GitHub, Jenkins, Docker, AWS EC2, AWS S3, Trivy, OWASP

PROJECTS

Lireons [Next.js | NestJs | TypeScript | Kubernetes | Terraform | Jenkins | AWS] [Link](#)

December 2025 – March 2026

- Architected a multi-tenant SaaS ERP platform utilizing a robust NestJS backend and a highly responsive Next.js/TypeScript frontend; automated cloud infrastructure provisioning using Terraform IaC on AWS, reducing manual setup time by 50%.
- Orchestrated containerized microservices with Docker and Kubernetes; implemented CI/CD pipelines via Jenkins for automated build-test-deploy workflows, achieving zero-downtime deployments and 99.9% uptime in the production environment.

My News App [Next.js | TypeScript | NextAuth | MongoDB] [Github](#) | [Link](#)

August 2025 – October 2025

- Engineered a full-stack Next.js application with TypeScript; integrated NextAuth.js (OAuth + email/password) with MongoDB, secure JWT session management, and edge-runtime middleware for strict role-based access control.
- Optimized authentication latency to <100ms via server component caching; implemented search engine-friendly structured data markup and dynamic sitemap generation, significantly enhancing SEO and organic search visibility.

CERTIFICATIONS & ACHIEVEMENTS

- [CompTIA Security+](#) | CompTIA
 - [CompTIA Network+](#) | CompTIA
 - Data Structures and Algorithms (C++) – Self-Paced | GeeksforGeeks
 - Achieved Top 2% on TryHackMe.com by solving advanced CTF challenges in VM Rooms
 - 30 Days of Code: The Complete Python Pro Bootcamp | Dr. Angela Yu, Udemy.
- December 2024 – May 2025

June 2024 – November 2024

June 2024 – August 2024

November 2022 – July 2024

March 2023 – March 2023

SKILLS

Languages: TypeScript, JavaScript, Python, Go, C++, Bash

Full-Stack & Mobile Architecture: Next.js, NestJS, React Native, Node.js, React.js, RESTful API Design

Cloud Infrastructure & DevOps: AWS (EC2, S3), Kubernetes, Docker, Terraform, CI/CD Pipelines (Jenkins, GitLab, Argo CD)

Observability & Security: Grafana, Prometheus, SonarQube, Vulnerability Scanning, OWASP, Penetration Testing

Engineering Leadership & Strategy: 0-to-1 Product Architecture, Technical Scoping & Budget Estimation, Cross-Functional Team Scaling (30+ headcount), Developer Velocity Optimization, Agile/Scrum Delivery

EDUCATION

Lovely Professional University, Punjab

August 2022 – May 2025

Bachelor of Computer Application in Cybersecurity — CGPA: 8.23

Jalandhar, IN

- Studied core subjects including Networking, Linux, and Object-Oriented Programming
- Gained strong foundations in Data Structures and Algorithms through project-based learning

Bharatiya Academy S/o foundation trust, Uttarakhand

April 2021 – May 2022

Commerce and Information Technology – Percentage : 83%

Roorkee, IN

- Studied foundational subjects including Accounts, Business, and Economics
- Gained technical exposure through Computer Science coursework
